How rotation works

Your one-month online advertisement will work on a rotation schedule. The cost you pay for is a guaranteed 10,000 impressions. During your run, your ad will be in rotation with several other ads, the amount determined by our monthly average visitors. As of summer 2012 our online readership averages just under 100,000 views a month. This means no more than 8 other ads will be in rotation with yours. If we have less, and we usually do, any additional impressions you gain are free. You will never be billed for more than the cost per month listed above. Tip: When calling to ask about advertising, ask which slot has the least ads in it, a smaller space could mean almost double the views for free!

Online advertising time line

Navajo Times reserves the right to take up to two business days to post your advertisement. Your ad will run for it’s allotted time from that date. Please allow an extra time for animations.

Online advertising specs

Supplied banners must be in Gif, JPG or PNG formats, we also accept html. Online ads must be sized exactly according to the chart above, 72 dpi and web optimized.
